

PAYROLL MANAGEMENT SOFTWARE

**SMART & AUTOMATED SALARY
PROCESSING SOLUTION**

Presented by STAR LINK

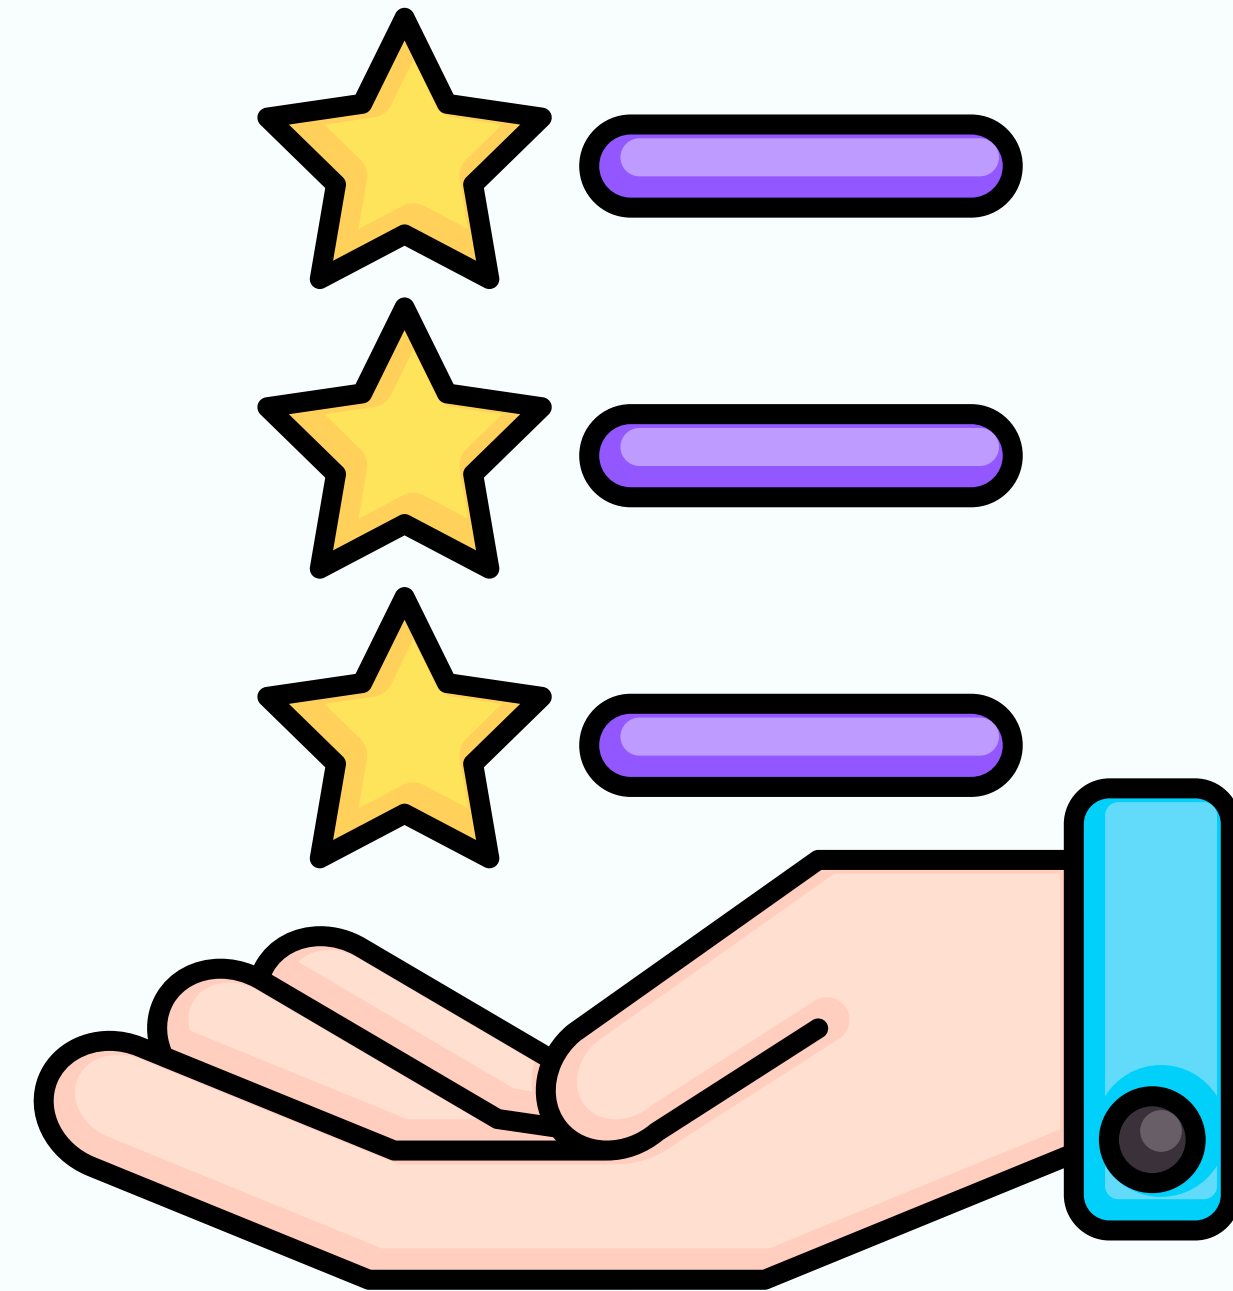

INTRODUCTION

Payroll Software is designed to efficiently manage employee salaries, increments, and deductions like ESI, PF, loans, gratuity, and bonuses. It also generates settlement reports during resignations. The software supports multiple salary structures, including piece-rate and daily wages, making it ideal for manufacturing and production units. With dynamic date settings, reports can be generated as per business requirements, offering flexibility and accuracy in payroll management.

KEY FEATURES

- > **One-Click Salary Processing – Saves time reduces errors.**
- > **Fully Integrated with Time Office Software – No manual data entry.**
- > **Automated Attendance Link – Direct sync with biometric devices.**
- > **Built-in Compliance Reports – PF, ESI, Tax, Bonus, etc.**
- > **Formula Setup for Salary Heads – Customizable for businesses.**
- > **Online PF & ESI Challan Submission – Ensures regulatory compliance.**

REPORTS & STATEMENTS

Available Reports:

- **Salary Reports:** Salary Slip, Register, Yearly Salary Summary.
- **Provident Fund Reports:** Form 5, Form 10, PF Statement, Return Statements. & Etc

Advantages of Payroll Software

- **Effortless Record-Keeping** - No need to flip through pages searching for employee records. Access individual or department-wise data instantly with just a click!
- **User-Friendly Interface** - Our software is designed for ease of use. Reports are generated in MS Excel, making salary calculations simple and efficient for HR and accounts teams.
- **Cost-Effective Solution** - Reduce workload and administrative costs without expensive hardware installations. Say goodbye to manual record-keeping and paper-based expenses!
- **Comprehensive Management** - More than just payroll processing! Our software helps maintain detailed employee records, ensuring seamless salary management and compliance.

WHY WE ARE AHEAD OF OTHERS:

- Latest technology.
- Superior Standards of quality.
- Customization facility
- Competitive prices.
- Prompt delivery.
- Excellent after sales services.
- Complete solution as per need.

SYSTEM REQUIREMENTS

FOR WEB-BASED SYSTEM

- > PROCESSOR: CORE4DUO/I7 OR HIGHER BUT XEON PROCESSOR WILL BE PREFERRED
- > RAM: 16GB | HARD DISK: 500 GB OR MORE.
- > IP : GLOBAL STATIC IP
- > OS: WINDOWS SERVER 2012 OR HIGHER.
- > SQL SERVER: SQL SERVER 2014 STANDARD OR HIGHER
- > WEB SERVER: IIS 7.0 OR HIGHER
- > SSL CERTIFICATE: REQUIRED

FOR WINDOWS-BASED SYSTEM

- > PROCESSOR: I3 & ABOVE
- > RAM: 8GB
- > HARD DISK: 320GB & MORE
- > OS: WINDOWS 10 & ABOVE
- > ANTI VIRUS: ANY UPDATED
- > SQL SERVER 2014 STANDARD OR HIGHER
